we would also like to know why we need to clear the scoreboard between each driver.

- Target version set to 1.3.30

Added Jamie and Walter as Watchers on this issue also creates version 1.3.30 as Target version

I did notice that the drivers names do not clear if you switch to qualifying from heats. (which I've fixed for the next version)

Normally clubs will run the event in a set order. Registration -> Qualifying -> Race Scoring and would not encounter this issue.

Do you have troubles switching from Qualifying to Race Scoring, or is this the issue you have encountered?
