- Status changed from New to Feedback

The club was trying to run a 12 car race but could not assign the 12th car. The user told me that they were going to assign the 12th car Y. The Official USAC scorers use the capital letter C for scoring the 12th car. I asked the USER if they had the USAC Club Rules option checked in Tools/Options/Keys and she said no. I asked her to tick the box as that enabled the USAC scoring conventions and it will automatically assign a 12th car the letter C' Now awaiting feedback
