Description

Walter, here are the suggested updates that I have for the Wiki page:

2nd paragraph:

- Add the word "Request" after "Custom Feature"

How to fill out the issue form:

- Suggest what the Status should be set to
- Suggest what the Priority should be set to
- Be specific about how to add Watchers. We don't all have this available (I don't).
- Where on the form does one find this?
- Does the watcher have to already have an account?
- How does one know who would have relevant interest?

History

#1 - 03/27/2018 11:55 PM - Walter Pate

- *Tracker changed from Bug to Support*
- *Status changed from New to In Progress*

I edited the Wiki file to reflect Emily's comments
