Target version:	Future	Spent time:	0.50 hour
Description			
Michelle Reeves from SCQMC writes hi Walter...its Michelle at Silver City....i was just trying to add a race and I'm getting an error code..."race editor" is in the top part of box and then it says unhandled exception has occurred in a component in your application...i hit continue and it still does not "add a race" i have downloaded the latest update on the website..no luck...any thoughts?

It should work with 1.3.52. First thing to check is you Event setup. Make sure that race type is eligible.

If you email me a copy of your database so I can analyze it. Go to Tools/backup/ backup database, save the database and send us a copy
