OQMRC at Trombauersville Pennsylvania Wants training

I provided Joe the details of what costs would be involved if we did onsite training (Flight, Accomodations, Schedule)

I gave him the alternative of the online training which would less expensive.

The problem with that is they do not have Internet at the track.

I explained it may be less for them to put internet at the track than for us to do an onsite training session.

And they could do a training session off track at a meeting room that has internet (like in someones office space)

It does not have to be at the track.

He agreed and thought it might be a plus for the track as they could take advantage of some of Moscore-QM's addon features.

He is going to discuss things with his board and get back to me with possible dates.
