Description			
<p>CIQMA could not get display to show time clock on the horizontal display on top trouble sent via email from Dale Smiley CIQMA I responded with an overview of setting the scoreboard up with proper Feature codes. Then touched on the scoreboard type (Pylon direct) then went over the extra options settings. Dale responded with possibly not having the number of digits set on extra options. He will try to set that on Monday when he is at the track</p>
